announcements of the transfers were made yesterday, the change to go into effect during the coming week. Father Thomas Mullen of St. Michael's, has been transferred to St. Bridget's; Father John Lyons of St. Leo's to Indian Creek, Mo.; Father Lloyd, newly ordained, goes to St. Leo's; Father Thomas o'Reiliy, newly ordained, to Holy Angel's; Father Daly of Holy Angel's to St. Lawrence O'Toole's; Father Jeremiah Murphy goes to the New Cathedral at Maryland and Newstead, while Father Godfrey goes to Baden temporarily in place of Father Phelan.

The news of the removal of Father Lyons from St. Leo's congregation, came in the nature of a great surprise to his friends. His labors among them for the past five years have won him the love of the entire parish. Previous to his arrival at St. Leo's he spent five years at Visitation Parish, where his name is yet a household word. A good deal of criticism has been stirred up on account of the fact that no announcement of the transfer of Father Lyons had been made to his parishioners at any time previous to yesterday. They remember that when the transfer of Father O'Brien was determined on, announcements of the fact were made at every Sunday mass for some weeks previous, and they say that they certainly ought to have been informed of the intended move. His parishioners intend to present him with a testimonial of their esteem before his departure this week.

GARFIELD BANK,

Unexpected Development From Van Wyck's Testimony in Ice Trust.

Will Ascertain if the Bank Has Violated the Laws Restricting the Amount of Its Loans.

REPUBLIC SPECIAL

Washington, June 10.-The Garfield Na-tional Bank of New York is to be investigated by Comptroller of the Currency Dawes as a consequence of the testimony of Mayor Van Wyck, given before Justice Gaynor in New York yesterday.

If the Mayor's testimony concerning the way he got the money to pay for the ice stock is true, it is contended that the bank violated the law.

It is not believed for an instant that the funds of the bank have been impatred, but it seems certain from Van Wyck's testimony that the national banking law has been violated and Comptroller Dawes has decided that there shall be a searching in-

tween the visits of two guards. At average minutes of 11 o'clock Underkeeper John Campbell placed his lunch in the wicket of his cell door.

The accused man was sitting on a chair of the declares that the line of the paid-up capital stock was the most frequent violation of the national banking laws with which the officials had

banking laws with which the officials had to contend.

"The law which the Garfield National Bank has violated, if what Mayor Van Wyck says is true, is section 5290 of the Revised Statutes," said Mr. Kane. "Mayor Van Wyck said he borrowed \$200,000 from the Garfield National Bank to pay for the left Trust stock which he said the bank sold him. The paid-in capital of the Garfield National Bank is \$200,000. Under the law Mayor Van Wyck should only have been permitted to borrow \$20,000.

Yesterday, when his death was known, a boy named Jerry Cahill, living at No. 719 South Second street, gave himself up to the police and acknowledged that he had shot Reichart the evening previous. He stated that he had not intended to shoet Reichart, and that the killing was altogether accidenal, as he was fighting with another boy at the time and intended the buillet for him. When he saw Reichart fall he became frightened and ran away, but when he heard that the wound had resulted fatally he determined to give himself up.

Submarine Boats in the United States

As a designer of ships, the economy in leading other nations in the adoption of submarines appeals to me strongly. For experience shows that as soon as any particular kind of fighting craft appears in numbers sufficiently large to make the effect of that kind felt, it forces great modifications upon existing types. Whether devices be invented whereby bettle ships can meet submarines, or whether they will continue to be vulnerable to offshore attacks as now, certain it is that the general appearance of submarines will force important modifications in design, and certain it is that the first country to accept the modifications will enjoy great comparative advantage in saving in her naval budget. At present France leads the world in developing submarines. Great Britain very properly discourages them, as she did surface torpedo boats, for the reason that they are essentially defensive weapons—"the arm of the weak at sea."

Our own country sadly needs the arm of the weak at sea; for, from the geographic conditions of our coast alone we will al-

Robert Hall Kills His Wife and Himseli.

REPUBLIC SPECIAL. Camden, N. J., June 10 .- Edith May Hall's bicycle carried her from wifely duty to miserable death at the hands of her hus band, Robert Hall. The woman, young and pand, Robert Hall. The woman, young and pretty, was shot and instantly killed by her husband last night as she returned from a bicycle tide in Fairmount Park. A physician, hastily summened, found the woman dead and her husband on his knees by her side, praying, with a fatal self-inflicted bullet wound in his breast.

with a fatal self-inflicted bullet wound in his breast.

The man was taken to Cooper Hospital in a dying condition. He left three carefully prepared letters explaining his action. The name of a prominent business man in Camden is involved in Roberts's declaration. He avers that the bicycle led his wife to ruin; that she met the man whom he accuses of destroying his domestic happiness during frequent bicycle excursions.

On Decoration Day, Roberts saw his wife in company of the man wheeling through Fairmount Park. There was a quarrel, and he threatened to kill them both. Saturday evening when the woman returned from a ride she found her husband waiting at her mother's house. He followed her to her bedroom, shot her and then himself.
